## Metabolic Booster

Far Infrared Energy pulsates the water molecule in your body, breaks down water molecule clusters, improve capillary functions, allow water molecules to enter cells with ease and revitalize the cells. Help recover regenerative systems.

## Burn Calories

FIR allows you to produce sweats at 2 to 3 times over conventional sauna setups. In Guyton's study, He mentioned that each gram of sweat burning 0.568 calories. Using the Relax F.I.R. Sauna could easily burn about 600 calories, the equivalent of running 4-6 miles.

## Reduce Body Fat

## Anti-Aging

City dwellers are used to sitting for an extended period, over-eat, lack of exercise, and be susceptible to chronic diseases and aging. FIR Sauna raise your metabolic rate, enhance beauty and anti-aging.

## Enhance Detoxify

FIR Sauna can open up the pores in your body and release the toxins that are building up inside of you. It will clean up your body and reduce the work load of your body in removing toxins.
