Massage Therapists get Results

We have been having amazing reports recently by many health professionals, and massage therapists. A massage therapist in Detroit had such incredible success in 3 days after she got a Relax Sauna from us with one of her MS clients and others. She called us and told us that 3 of them wanted Saunas. Incredible relief of pain in others.

One massage therapist has been telling other massage therapists that "You want to work smarter, not harder." as she explains to them that after she puts her client in the RELAX sauna, she can do more good for her client with a 20 minute massage than a 55 minute massage with no sauna treatment. A lady doing reconnective tissue work found similar results. Another massage therapists, added, "Massaging people after they have been in the RELAX sauna for 10 minutes is like butter melting in the microwave."

Deep Tissue Far Infrared Heat Therapy Lamp

Relief is on the way...

- * Drug Free
- * Non-Surgical
- * Pain Free
- * Fast Acting

Upright application for lower back injury

Horizontal application for lower back injury

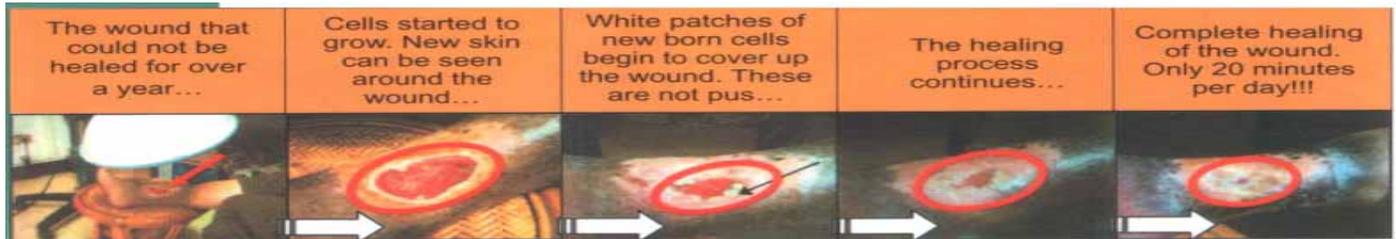

Knee injury

(FIR-8810)

Far Infrared Heat Therapy is the most advanced approach for most sports related injuries with no drugs, non-surgical and fast acting pain free relief in as little as 10 minutes per application.

Small diabetic leg Ulcers disappear in 2 months, twice a week in the Sauna - Plus Liver

A lady who owns a spa in Philadelphia bought our sauna because she was impressed with the report showing how the Sky Eye Professional Radiator had helped a huge ulcer heal in only 7 weeks. She bought a sauna from us and has since reported to us that she has had two clients who each had maybe 5-10 diabetic ulcers on their legs. In both cases, the ulcers cleared up in 2 months, using the sauna just twice a week. This same lady also reported to us that a man who had hepatitis C no longer has it and almost more unbelievably, a lady told she needed a liver transplant no longer needs one. Both received a series of sauna treatments.
