A professional sauna for your home or office

Relax Far Infrared Sauna

Advanced Far Infrared Technology

It was a MAJOR breakthrough in Technology to discover HOW to Filter out NON-Far Infrared wavelength by the use of a specially designed Semi Conductor chip.

Revolutionary ceramic semiconductor Technology!
The patented Energy sources are auto-temperature controlled Far Infrared ceramic semiconductors. 20 semiconductors per radiator.

The materials in the tent are made from high quality nylon and not plastic. The tent is embedded with a reflective material to act as a mirror to evenly distribute the FIR light.

Benefits include
Mental Clarity, Rejuvenation, Detoxification, Relaxation, Weight Loss, Better Sleep, Softer Skin, Circulation & more

The Relax Sauna Semiconductor Technology is globally recognized and has received patents and awards in Taiwan, Germany, Japan and the United States of America. This is because the Relax Sauna uses a patented semi-conductor chip that emits 95-99% pure FIR light. Many people who own or use wooden infrared saunas are amazed how much more effective and comfortable the Relax Sauna is. Often getting a Relax Saunas as well.
