

Relax Sauna Energy - Technological Breakthrough!

We have included this information here in order to convey to the public, and to health professionals that the Relax Sauna generators are SPECIAL. The relax Sauna generators emit 95-99% Far Infrared Energy, which is UNHEARD of in the Far Infrared Sauna industry. Your carbon heaters in portable saunas emit about 36% FIR energy, Tourmaline Disks about 18% , and the panels or emitters in wooden saunas emit usually between 40-50% far infrared Energy. ONLY Far Infrared Energy between 4-14 microns PULSATES your water Molecules !

The Relax Sauna is the ONLY Sit-Up Portable Sauna that does NOT HAVE 20 Square Feet of Corrugated Plastic Inside their tent !

Anyone who has experienced the Relax Sauna clearly feels the tremendous difference, as evidenced by over 650 Youtube Video Testimonials.

Automatic Heat Controlled Ceramic Semi-conductor Combines Far Infrared Ray, Heat Materials and Control Components !

Zirconium Ceramic Semi Conductor chips are held firmly in place by a conductive elastic plate. The Automatic Temperature Control mechanism determines the amount of electricity used to precisely control the amount and wavelength of far infrared energy produced.

The structure for a PTC heater according to the present invention includes a pair of spaced square frames fixed and locked together in face-to-face relationship. The plates are made of good electrical and thermal conductivity material. ... The heat generated from each PTC thermistor element can be conducted through the body of the frames to the foraminous areas from which the heat can be radiated quickly. In other words... a PTC heater fabricated according to this structure has a higher heat dissipating coefficient than conventional PTC heaters.

Relax FIR Sauna

Relax Sauna generator & semi-conductor Chip

The semi-conductor Chip Allows NO Wiggle Room, so the Far-infrared energy generated by the Relax Sauna is VERY Accurate. Quoted by a Semi-conductor Mathematician at the Extra-ordinary Technology conference in Albuquerque - July 2017

Relax Sauna Energy - acts as an EMF Protector

Far infrared energy has been shown in many studies to Antidote EMF. Because the Relax sauna has 4-10 times more Far Infrared Generated by its emitters than any other sauna, it is extremely effective in antidoting any ill effects caused by previous EMF exposure, and actually acts as one of the best EMF Protectors.
