Relax Sauna Radiators / Revolutionary ceramic semiconductor Technology

The patented Energy sources are auto-temperature controlled Far Infrared ceramic semiconductors. 24 semiconducts per generator.

The semi-conductor chip that the Relax Company uses - took 10 years - to perfect to get the bandwidth of frequency to be over 95% far infrared Energy. This WAS A major breakthrough in science: Dr Chang and the Relax company have received numerous international awards for this achievement. The Relax Radiators and Saunas are used in hospitals and holistic healing centers all over the world.

Compared to wood Infrared Saunas

The Relax Sauna heats up faster (30 seconds), and generates about 4 times the amount of Far Infrared Light as other wood saunas. 100's of wooden sauna owners now have Relax FIR Saunas in their home.

Compared to other Portable Saunas

The Relax sauna is the only sauna that does not use corrugated plastic inside the tent. The Relax Sauna tent acts as a mirror to reflect the far infrared light. The Relax Sauna generators emit about 7 times more FIR light than any other portable sauna.
