

## Why is the Relax Sauna more effective than other saunas ?

The RELAX SAUNA RADIATORS GENERATE 100% PURE FAR INFRARED LIGHT

see FDA website: <http://www.accessdata.fda.gov/scripts/cdrh/cfdocs/cfPMN/pmn.cfm?ID=20176>

40 semi-conductor chips filter out all non-healing non-far infrared light

### ceramic semi-conductor chip

A computer program is embedded in this chip, which filters out all of the non-healing, non-absorbable light rays.

The Relax Far Infrared Heater System utilizes the only clinically tested Heater and has received an FDA 510K # : K05337. You are thus guaranteed to receive only Far Infrared Light Rays, as documented by the FDA (Only 4.4 to 14.4 microns of light rays are emitted by the Relax Sauna radiators, with no light energy emitted that your body does not absorb (i.e. near infrared, ultraviolet, microwaves, etc.). Because Relax employs a computer programmed semi-conductor chip (see above left) that filters out all of the NON-Far Infrared Light, you can RELAX and simply absorb the Far Infrared Light without having to resist any of the non-absorbable, non-healing light rays. This is like listening to enjoyable music with no static, no other music playing, and no-one talking in the background. You can relax and totally absorb the healing light.

This way you can totally absorb the healing Far Infrared Rays without having to consciously or unconsciously resist all other light energies which your body cannot absorb. We believe that our Relax Sauna Radiators generate the most beneficial far infrared LIGHT available, since no other sauna that we know of has this technology, **which we have a patent for.**

The alternative FIR energy is a non-filtered cloth over a metallic grid. We call this a 3rd level of FIR technology.

Other portable Saunas use a metal grid that looks like a labyrinth, which is coated with laminated plastic. Electricity heats up the grid. A cloth impregnated with carbon is placed on top of this laminated grid, and eventually it gets hot, and generates a light composed of far infrared light and other wave lengths that are not far infrared. Because the light is NOT totally far infrared, it does NOT have the intensity or the purity of the Relax Sauna. These saunas are limited in their results. They work, but not as quickly and not as effectively.

Many individuals have told us that they can do a full sweat in 15-22 minutes in the RELAX sauna, which was about half the time it took them in their previously owned saunas.

### The Relax Sauna uses 1500 watts of energy

1500 watts of energy is 1 1/2 times the energy of other Saunas using only 1000 watts of energy, and thus is more intense than other portable saunas. The Relax Sauna generates a strong far infrared light that is absorbed into the body. It penetrates the body 1-2", and has a moving effect on the water molecules in the body, as shown in our 24-page booklet on the benefits of the Relax Far Infrared Saunas. A chain reaction then occurs in the body, creating many health benefits to the body (Including increasing circulation, and pumping the lymphatic system). The RELAX Sauna provides enough strength of far infrared light to have an excellent healing effect on the body.

### The Reflecting Tent Surface Reflects light into your body over and over and over

Silver is embedded into the cloth that makes up the fabric of the Relax Sauna Tent. As the light is generated by the far infrared radiators at that base of the tent, the light hits the back of the tent, and then is reflected back to the front of the tent, and at 186,000 miles per hour (the speed of light), it quickly goes through your body over and over and over again, penetrating your body, and being absorbed by your body from every nook and cranny of the tent, as you are almost immediately immersed in a "Far Infrared Ray Light Box." You start feeling the warmth of the absorbed light within 30 seconds to 1 minute. Other saunas take from 5 minutes to 20 minutes to feel toasty. (Wooden saunas generally take 20 minutes.)

The Relax Sauna comes with a very comfortable insulated chair, and the tent folds easily.
